
You can now recycle batteries in your glass collection bin!

Simply tape the terminal ends of your rechargeable and button batteries first and put all acceptable batteries (see list below) in a 1-quart sealed plastic bag and place it in your glass bin.

The following batteries can be recycled in the curbside program:

- Alkaline batteries such as AAA, AA, C, D (don't need ends taped),
- 6-volt, 9-volt (need ends taped)
- Lithium ion and button batteries (need ends taped)
- Rechargeable batteries (need ends taped)

The following batteries are not accepted in the curbside program:

- Lead acid batteries
- Electric bike batteries
